

Injection Molding

A-Surface

Capabilities

- Tonnage up to 490
- Kitting of parts
- Assembly
- Post processing trimming / De flashing

Engineering & Technical Support

- Design for Manufacturability (DFM)
- Mold flow analysis
- Tooling design & sourcing
- Process optimization
- Value engineering / cost reduction

Tooling & Mold Management

- Preventive maintenance programs
- Tool transfers
- Mold storage & management
- Domestic & overseas tool sourcing options

Quality & Certifications

- ISO 14001
- ATF 16949
- PPAP capability
- First Article Inspection
- CMM inspection
